

UKSEDS

UK STUDENTS FOR THE EXPLORATION AND DEVELOPMENT OF SPACE

PARTNERSHIP OPPORTUNITIES

OCTOBER 2018

THOUSANDS OF STUDENTS. DOZENS OF UNIVERSITIES. ONE VISION. WE ARE UKSEDS.

UKSEDS is the UK's national student space society.

For over 30 years we have been supporting students and young professionals across the country by running events, providing resources, and teaching them new skills. Our alumni work throughout the global space sector in government, industry, and academia.

Our events bring hundreds of students, academics, and employers together to network, share knowledge, and discuss the challenges facing the sector, whilst our competitions give students valuable technical and transferable skills.

Online, our careers resource, [SpaceCareers.uk](https://spacecareers.uk), is the number one website of its kind, serving hundreds of visitors every day, and has been recognised with an award from the Prime Minister. At events and in schools all over the UK, our volunteers inspire and educate the next generation, and build public support for space.

We are the UK chapter of the global movement, and have a unique insight into the UK space sector from a student perspective. We use our expertise and data to advocate for development of the space skills pipeline.

Your company develops the future of space science and technology. We develop the future leaders of the space sector.

PROMOTE YOUR WORK

JOIN THE NATIONAL STUDENT SPACE CONFERENCE

The NSSC is the premier student space event in the UK. It features talks by leading space science and industry figures, a careers fair, and many networking opportunities.

It is the only event of its kind. Hundreds of undergraduate science and engineering students with a strong interest in the space industry come from all over the country to learn more about space projects and potential employers.

Exhibiting is a unique chance to engage motivated and talented students all in one go.

Networking Reception (£350)

A wine reception after talks on the first day of the conference. You can give a short talk to welcome everybody and introduce your company.

CASE STUDY: AIRBUS DEFENCE & SPACE UK

Airbus partnered with us to hold their Student Presentation Competition for the first time at the 2016 National Student Space Conference.

We assisted Airbus in promoting their competition by reaching out to our members and followers for several months in the run up to the conference. As a result of our collaboration, Airbus saw a significant increase in the number of applications, receiving numerous outstanding entries from around the country and from universities abroad.

The finalists were given speaking slots at the conference, and UKSEDS arranged for distinguished professionals and academics from the field to sit with experts from Airbus on the panel of judges.

Following the event, students knew more about Airbus' activities, and their impression of the company improved significantly.

MAKE A STRATEGIC MOVE BECOME A CORPORATE PARTNER

Key Benefits

£2000+

- Your branding on our careers events, websites, and publicity materials
- Stands and speakers at our careers events
- Exclusive data on early careers job seekers
- Featured job postings on SpaceCareers.uk

“I have no doubt that the future leaders of the UK space sector are currently members of UKSEDS”

Craig Brown
Innovate UK

Corporate partnership is an opportunity to support our work throughout the year, and help us shape the future of the space sector in the UK by reaching thousands of young space enthusiasts.

As a partner you will get exposure all year round, with your logo displayed on both the UKSEDS and SpaceCareers.uk websites, and on publicity materials and social media platforms.

You will be listed as a sponsor for all our careers events, including Careers Launch, Diversity in Space Careers, and the National Student Space Conference where you will be get the gold package from the previous page along with special billing as a Corporate Partner.

You'll also get access to our reports, which include exclusive data on early careers job seekers using SpaceCareers.uk and attending our conferences, events, and competitions, allowing you to more recruit more effectively.

Any jobs, internships, or events you advertise on SpaceCareers.uk will be featured and displayed prominently.

Talk to us about how we can tailor a partnership to your needs.

INVEST IN THE FUTURE

GIVE STUDENTS SKILLS THE INDUSTRY NEEDS

Help us inspire the next generation of space professionals, give them the skills your industry needs, and cherry-pick the best performers for your business.

We run projects, competitions, and events in partnership with industry leaders. We've worked with Thales Alenia Space UK to develop a rover competition, and Airbus to support their presentation competition at our annual conference.

Find out how your company can shape the development of the new generation of scientists and engineers.

“we conceived the Lunar Rover Competition together with UKSEDS to give UK students a headstart and to help close the skills gap for the burgeoning UK space industry”

Andrew Bacon
Thales Alenia Space UK

ADVERTISE JOBS ON SPACECAREERS.UK

The UK space sector is growing fast.

Students have no idea.

We are changing that with SpaceCareers.uk, a jobs board, and comprehensive resource for information and advice about careers in the space sector.

SpaceCareers.uk ranks top of Google searches and integrates with Google's jobs board. It is included in many careers guides, and was recognised with an award from the Prime Minister in 2017.

Need a position advertised fast to thousands of students? Not a problem. You can send us the details, or upload them yourself. They'll stay up for as long as you want.

Email advertise@spacecareers.uk

“I thoroughly recommend any careers practitioners check out the @UKSEDS ‘Space Careers’ website, which is genuinely one of the best sector-specific careers sites I think I’ve seen!”

Chris Webb
Leeds City Council
